*"Every time I see this picture I see two things...my bride and I having the best day of our lives...and you in the background making sure everything was as it should be. Beyond the obvious great work you did on a professional level your care and personal satisfaction was caught by the cameras eye. I consider the care and joy you expressed in our time to be an indication of your character. You should be proud of your accomplishments there at Berry Hill for I know this is what you try to do every time. Thanks again for a great day, and for your unselfish service."*
